

A New Concept in Mental Alertness

By Bill Wolfe, DDS, NMD

Good Energy Technology is a proprietary process of a frequency infusion, whereby health-promoting frequencies are infused into products. Such bio-energetic products encourage health by means of stimulating the body's energy field, rather than by eliminating physical symptoms via artificial ingredients. MSM stands for methylsulfonylmethane, a natural substance present in food and in the human body. MSM supplies a biologically active form of sulfur, which promotes the intercellular transport of toxins and nutrients. Good Energy Products' "Crystal Clarity" (Super) MSM is a very pure crystalline form of MSM, which is an excellent medium for the Good Energy Technology frequency formulas. So, if your brain needs more mental clarity and your body needs an energy boost, TRY THIS!

Testimonials:

"I arrived at a friend's yard sale feeling very ill and fluish. In about 2 minutes after taking the Good Energy Products MSM, my head started to clear, my stomach started feeling better and in about 20 minutes I couldn't believe how much better I felt. This product is fabulous. I love it! *Karen*

I just purchased a 3 year old horse, who seemed to have a lack of energy. After giving Super MSM to him, his energy level, awareness, and especially his personality have all improved! *Connie H.*

I train racehorses for a living. The Good Energy MSM has proven to be remarkable in the performance of the horses I have trained! *Red*

I have been taking the "Super MSM" mental clarity product for a few weeks. I am just coming off of an antidepressant med, and these crystals have helped my moods and my brain function. Although I am not 100% yet, I know the MSM is helping me get through this time. *Beth*

Taking the Good Energy MSM gives me a feeling of mental clarity every morning. Adding the MSM to my tea or coffee is truly a turbocharge for my brain. Good Morning with Good Energy Products! *Greg*

Taking the Good Energy MSM every day last week (prior to swimming

and working out) had a two-fold outcome. I had been apprehensive and nervous about my new job, and the MSM fortified me in a way that is hard to describe. It allowed my fears to remain distant, and I then could proceed in the learning of the new job. As for the swimming...that is a whole other matter. Exercising is more of a spiritual thing for me, and adding the Good Energy MSM makes me fly across the pool. When the Olympic-length pool is available, I did the butterfly down and back, feeling strong and powerful and not at all out of breath...I felt terrific! *Carol, R.N.*

Bill Wolfe, D.D.S., N.M.D. Dr. Wolfe graduated from the University of Texas at Austin in 1968 and received his dental degree from Baylor College of Dentistry in 1972. He practices in Santa Fe, New Mexico, focusing on "Biological Dentistry", which includes the principles of electroacupuncture, kinesiology and homeopathy.
